Articles/Case Studies/Factsheets List

Case Studies

- How a group of severely disabled children took and manipulated digital photographs of their artwork
  http://schools.becta.org.uk/index.php?section=cu&catcode=ss_cu_ac_art_03&rid=5573

- How a group of 25 lower-achieving Year 10 students made movies about poems
  http://schools.becta.org.uk/index.php?section=cu&catcode=ss_cu_ac_eng_03&rid=16350

- A class of pupils with severe learning difficulties use podcasting to communicate
  http://schools.becta.org.uk/index.php?section=cu&catcode=ss_cu_ac_eng_03&rid=12848

- On-screen grid software can be a powerful tool to support poor literacy skills
  http://schools.becta.org.uk/index.php?section=cu&catcode=ss_cu_ac_eng_03&rid=4318

- Using the symbols on a concept keyboard to record sequences of movements
  http://schools.becta.org.uk/index.php?section=cu&catcode=ss_cu_ac_eng_03&rid=5964

- How teachers at Sherbourne Fields used Dance eJay successfully in a variety of educational contexts
  http://schools.becta.org.uk/index.php?section=cu&catcode=ss_cu_ac_mus_03&rid=3149

- Speech and interactive activities incorporated into worksheets makes learning more interesting and inclusive
  http://schools.becta.org.uk/index.php?section=cu&catcode=ss_cu_ac_sci_03&rid=7125

- inspire me: Using Dance eJay for pupils with moderate learning difficulties

- inspire me: Using interactive whiteboards with students who are profoundly deaf

- inspire me: Improving access to writing

- inspire me: Physical disabilities and ICT
  How ICT can help those with physical disabilities

- inspire me: Hearing impairment
- ICT can be particularly useful in learning for those with hearing difficulties

- inspire me: Specific learning difficulties and ICT
- How ICT can help children with specific learning difficulties

- inspire me: Visual impairment and ICT
- How ICT can help those with visual impairments in the classroom

- inspire me: Being brilliant
  A digital camera and video editing software can help children with autism

- inspire me: Interactively speaking

Speech and interactive activities incorporated into worksheets makes learning more interesting and inclusive

➤ inspire me: Using software to develop cognitive skills
Shows how a range of software can help pupils to develop cognitive skills

➤ inspire me: Exploring how ICT can help support pupils with emotional and behavioural difficulties (EBD)
How one school tackled problems of classroom behaviour

➤ inspire me: Using ICT to teach pupils with emotional and behavioural difficulties
A selection of good practice in the classroom using ICT to support pupils

Articles/Info Sheets

➤ How ICT can support both teachers and learners whose first language is not English
http://schools.becta.org.uk/index.php?section=cu&catcode=ss_cu_ac_eng_03&rid=1801

➤ For those pupils who need to master motor control there is software that can help
http://schools.becta.org.uk/index.php?section=cu&catcode=ss_cu_skl_02&rid=4320

➤ Making software accessible: a guide for schools

➤ Emotional and Behavioural difficulties and ICT

➤ Learning difficulties and ICT
➤ Speech and language difficulties and ICT

➤ How to use ICT to support education for pupils with medical needs
Maintaining learning and contact with their school while pupils are in hospital or at home

➤ Organising accessible ICT
How to get the best out of your existing ICT equipment

➤ How to help pupils to access the technology
Looks at how software can be used to support individual learning needs

➤ How to use technology to access the curriculum
How switches, joysticks, rollerballs and specialised keyboards can enable access to learning

➤ How to use ICT with deaf children to develop literacy
An overview of products that can help deaf learners with spelling, writing and decoding words

- > [How to use ICT to develop the skills of deaf children](#)
  Learners with hearing loss often need opportunities to extend their use of descriptive language
